Jinka Gayathri

+91 8121086697 | gayathrijinka2005@gmail.com | LinkedIn | GitHub | LeetCode

Profile Summary

- Passionate Computer Science undergraduate proficient in Java, OOP, DSA, and problem-solving, with hands-on experience in web development and machine learning using Python, Flask, React.js, REST APIs, Scikit-learn, TensorFlow, and Generative AI.

Education

Vellore Institute of Technology, Andhra Pradesh 2023 – Present
B.Tech in Computer Science and Engineering *CGPA: 8.96*

Narayana Junior College, Anantapur, Andhra Pradesh 2021 – 2023
Intermediate Education *Percentage: 95%*

AP Model School, Vidapanakal, Andhra Pradesh 2020 – 2021
Secondary Education *Percentage: 92%*

Technical Skills

Languages: Java, Python, R, SQL
Frameworks: HTML, CSS, JavaScript, React.js, Node.js, Flask, REST APIs
AI: NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, Machine Learning, Deep Learning, Generative AI , Large Language Models (LLMs), Prompt Engineering, Retrieval-Augmented Generation (RAG)
Tools: Git, GitHub, VS Code, Jupyter Notebook, Anaconda
CS core: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

Projects

AnemiaSense – AI-Powered Anemia Prediction System May 2025

– Developed an AI-powered anemia prediction system using the Kaggle Anemia.csv dataset with clinical features including Hemoglobin, MCH, MCHC, MCV, and Gender. Performed data preprocessing, feature engineering, and model evaluation, selecting Random Forest for optimal performance. Integrated the trained model with Flask REST APIs, developed a responsive HTML, CSS, and JavaScript interface, and deployed the application on Render for real-time predictions. Link

CineBook – AI-Based Movie & Book Recommendation System June 2026

– Developed an AI-powered recommendation platform using movie and book datasets containing genres, descriptions, cast, directors, ratings, and user preferences. Implemented TF-IDF, cosine similarity, and Truncated SVD for personalized recommendations. Built a hybrid recommendation engine and integrated Google Gemini AI for natural-language queries. Developed Flask REST APIs for application integration. Link

EmpowerHer – Multilingual Women Empowerment Platform Dec 2025

– Developed a multilingual web platform connecting rural women with skill training, educational guidance, and local job opportunities using HTML, CSS, and JavaScript. Link

Certifications

Machine Learning in Collaboration with Google | By SmartBridge Certification
Getting Started with Full Stack Java Development | By Simplilearn SkillUp Certification
Generative AI and ChatGPT | By GeeksforGeeks Certification

Clubs and Chapters

Computer Society of India (CSI) – VIT-AP Student Chapter | Member 2024 – 2025

– Helped organize technical events and competitive programming activities within the student community.
